

If you allow Sinclair to broadcast their anti-Kerry documentary, I urge you to also require that they air (on the same terms) a countervailing documentary. For example, Frontline's documentary about the two presidential candidates would be appropriate.

You have a responsibility to protect the American people from misuse of the airwaves, as Sinclair seems to be doing in this case.

You have a responsibility to prevent media owners from abusing their license of our airwaves. You have a responsibility to make sure that political campaigns are fair and legal.

DO YOUR JOB!
